

**Amendments to the Specification:**

Please replace paragraph 0043 with the following amended paragraph:

First, as mentioned above, the filler and the capsule shell material are supplied to the multiple nozzle 22 in the spherical capsule manufacturing machine 10, and droplets having the filler encapsulated the shell material are immersed in the curing liquid 24, thereby manufacturing spherical capsules C1. In this embodiment, the shell material of the spherical capsule C1 is made of gelatin, glycerin and purified water, and the filler of the spherical capsule C1 consists ~~neutral fatty acid triglyceride~~ of medium chain triglyceride in which a medicine such as a flavor is dissolved by using absolute ethanol as an auxiliary solubilizer.
